

HPV human Papilloma Virus

80% 8 out of 10 a woman will be infected more than once

Vaginitis

70% 7 out of 10 a woman will be infected more than once

Immunity against HPV and Vaginitis is important

When NK cell activity decreases, the immune system in the vagina decreases, making HPV and Vaginitis more likely to recur

HPV Vaginitis Mist

inery NK

- Contains activated NK cell culture extract
- INIC Name : Human Blood Derived Natural Killer Cell Conditioned Media extract

“Treatment and prevention are completed with through self-care.”

- This product is not a medicine.
- inery NK is a Intimate cleanser containing NK cell culture

HPV, Vaginitis Feminine cleanser

- NK cell culture**
Immunity against
- HPV
 - Candida
 - Bacteria

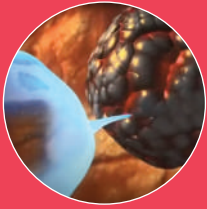

- Candida 99.9%
- 3 types of lactobacillus extracts
- pH balanced
- EWG Green

HPV Vaginitis Mist

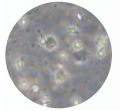

NK Cell (Natural Killer Cell)

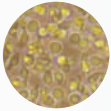

It is an innate immune cell that removes viruses and abnormal cells, also called natural killer cells by killing infected cells and cancer cells

NK cell activity strengthens immunity!!

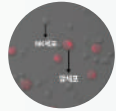

NK cells with high activity recognize and eliminate abnormal cells

Inactivated NK cell
Not Recognizing cancer cells

Activated NK cell
Recognizing cancer cells

NK cell approaching
cancer cell

NK cell attacking
cancer cell

Patented technology by Immunis Bio

Activated NK cell
culture extract

- Contains 530 active ingredients
- Manufactured with 11 patented techs
- Stability-approved after series of cytotoxicity testing
- Listed on ICID (International Cosmetic Ingredient Dictionary)

01
Feature

INIC Name
Human Blood Derived
Natural Killer Cell
Conditioned Media Extract

02
Feature

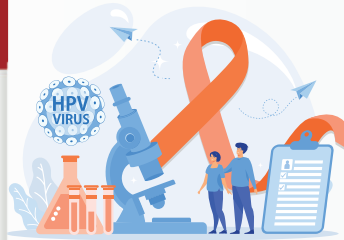

**Approved advanced
bio-medical manufacturer**
NK cell culture production
in pharmaceutical
production facilities

03
Feature

Secured cell cultivation
No feeder cell, No radiation
Reproducing Biological
immune activation process

“iner:y NK enhances intravaginal immunity against HPV, vaginitis”

HPV main cause of cervical cancer

Post-screening Home-care

- Cervical cancer test
- Pap smear test
- Colposcopy & Cervicography
- HPV test

For both females and males
Daily CARE against HPV

Vaginitis comes like common cold

Post-screening Home-care

- STI test
- Vaginitis test

Relieve symptoms and prevent recurrence
Daily CARE against Vaginitis

- 360° Fine mist spray
- Easy to use anytime, anywhere
- Refreshing feeling

Discharge, itching, stinging, and odor
Whitening functional products

Patents

- A method to cultivate mass natural killer cell by using macrophage and inflammatory agent
- A method to cultivate mass natural killer cell by controlling cellular density
- Anti-bacterial effect of immunocyte-cultivation embedded cosmetic composition
